Types of widgets
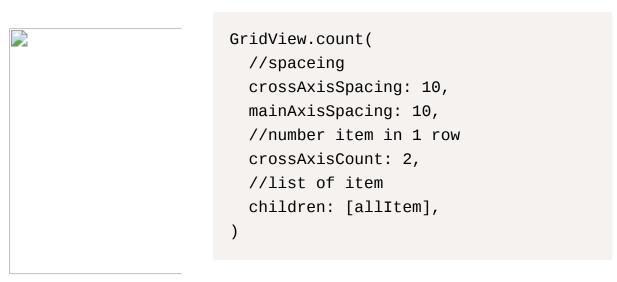

Common Widgets

Some useful widgets you need to build in every app in Flutter

Icon library: https://fonts.google.com/icons

GridView

Notes

```
GridView.count(
  //spaceing
  crossAxisSpacing: 10,
  mainAxisSpacing: 10,
  //number item in 1 row
  crossAxisCount: 2,
  //list of item
  children: [allItem],
)
```

Column

Notes

```
const Column(
  children: <Widget>[
    Text('Deliver features f
    Text('Craft beautiful UI
    Expanded(
      child: FittedBox(
        child: FlutterLogo()
      ),
    ),],)
```

Row

Notes

```
const Row(
  children: <Widget>[
    Expanded(
      child: Text('Deliver features fast
    ),
    Expanded(
      child: Text('Craft beautiful UIs',
    ),
    Expanded(
      child: FittedBox(
        child: FlutterLogo(),
),),],)
```

Scaffold

Notes

```
const Column(
  children: <Widget>[
    Text('Deliver features f
    Text('Craft beautiful UI
    Expanded(
      child: FittedBox(
        child: FlutterLogo()
      ),
    ),
  ],
)
```
